**AICTE Sponsored (ATAL)**

# Revolutionizing Healthcare: The Role of AI in Drug Development, Clinical Trials, and Practice

**Date: October 13th – 18th, 2025**

**Mode: Online**

Artificial Intelligence (AI) is transforming healthcare by reshaping drug discovery, clinical trials, and patient care. This FDP introduces participants to AI's applications in modern healthcare, emphasizing its ability to accelerate discovery, reduce costs, and support data-driven decisions. Designed for young faculty, it bridges biology with computational intelligence and precision medicine.

**Organized by : Indian Institute of Information Technology, Allahabad**
